

XEROX®

Xerox Wide Format
Print System **510**

Technology | Document Management | Consulting Services

The most
scalable
solution
in sight...

For workgroups producing CAD and GIS documents, the Xerox Wide Format 510 Series stands alone. It's scalable, so you can add new capabilities when you need them. It's customisable, so you can spec your own solutions. It's precise, so it actually improves hard-to-read originals. And when you see it running, you'll see why it has the wide-format world thinking...

Real investment protection.
Add capabilities as your business and budget allow – and relax with our 3-Year Total Satisfaction Guarantee.

Real scalability.
You can double print and scan speeds, triple paper capacity, and add finishing solutions as your needs change.

Real image quality.
Patented MicroDensity™ technology assures excellent images with black solid fills and crisp, fine lines.

Real colour capabilities.
Accurately captures B&W or colour originals; shrinks 24-bit colour files to 8- or 4-bit size.

Introducing the **New** Wide Format 510 Series. Designed to evolve. Engineered to excel.

Think Scalable.
Start with the basic configuration and as your needs change, you can double your printing and scanning speeds, triple your paper capacity and add folding, stacking and software solutions whenever you want.

Think Investment Protection.
You can customise your Xerox Wide Format 510 Series anytime, so you can choose the enhancements you want when it's best for your business and your budget. Why buy more, or settle for less, than you need?

Think Image Quality.
Patented Xerox MicroDensity technology assures consistently outstanding copy quality with excellent edge-to-edge accuracy. You'll see blacker solid fills and finer, crisper lines, with 256 greyscale levels to optimise halftones and shading. Plus, all output is of archival quality.

Think Uptime.
The Xerox Wide Format 510 Series continuously vacuums loose toner particles to reduce contamination and improve uptime and reliability. It also provides the highest toner yield in its class.

Think Productivity.
Built to handle your demanding print volume needs. CMOS scanning sensors self-calibrate for every print. This virtually eliminates the need for makeovers and periodic alignment service calls.

Think AccXES®.
Industry-standard AccXES controller and software seamlessly integrate every Xerox Wide Format Solution with your network. Intuitive, easy-to-understand interface shows print status and keeps you in control.

Think wider.

Think Big.

Accepts originals up to 13mm thick, 914mm wide and 25 meters long.

Think Compatible.

Offers software/firmware support for Windows® NT/2000/XP, Adobe® PostScript® 3 and PDF, JPEG and other popular file formats.

Think Reliability.

World-class Xerox digital imaging technology plus 3-year Xerox Total Satisfaction Guarantee, the industry's longest and strongest.

Think Environmentally-friendly.

Products that are ENERGY STAR® certified are designed to use less energy, help you save money on utility bills, and help protect the environment.
